#### **Benefits:**

- Welding-head for up to max. 1.500 N welding force
- Due to modular principle highest compatibility to other KombiTec products
- Compact, but highly flexible construction with lowest possible weight
- Precise positioning-accuracy, stability and robustness due to pre-stressed ballbearings
- Highest reproducibility through shape-connection
- Outstanding repositioning behaviour due to unstressed anti-torsion units
- Simple adjusting of sensors and stroke
- Infinitely variable damping force
- Direct force monitoring at electrodes with electronical force measuring
- Simple upgrading opportunities of distance-control and force measuring devices

#### **Application areas:**

Suitable for all standard weldings, like:

- Automotive: welding of steel-sheets
- Industry / Mechanical engineering: Welding of thicker parts
- Energy technique: thicker contacts for solar power generators and equipment
- Production of consumption goods: Heaters, cooking-pots,
